

PARAM POS

Quick and Easy Integration

Advanced API options that support many languages provide easy integration from a single center and enable you to start receiving your payments in no time!

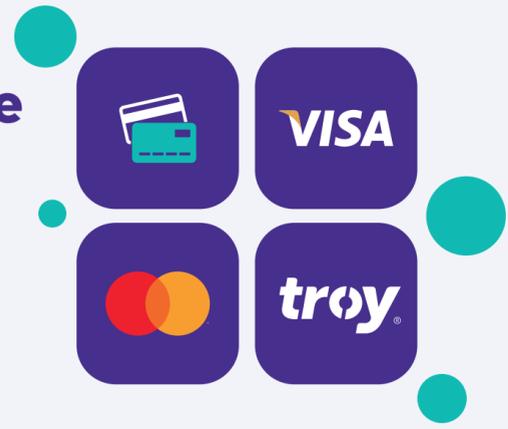

Receive Secure Payments

Holder of the global security standard PCI - DSS certificate, Param, a brand under TÜRK Elektronik Para A.Ş., the first licensed electronic money institution in Türkiye, enables you to securely store card information and perform automatic collections.

Reach POSs of All Banks At Once

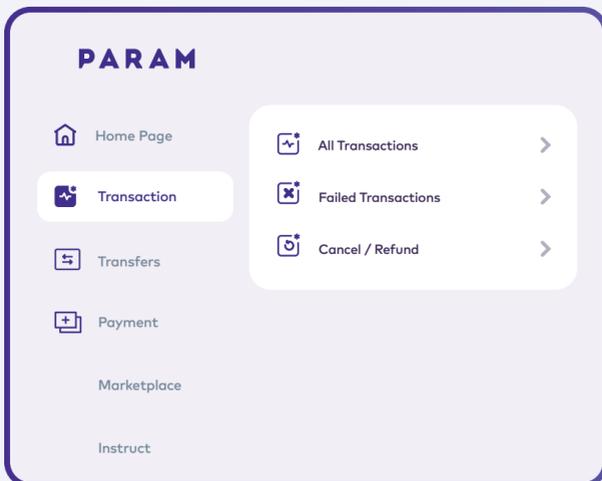

ParamPOS is integrated with 23 banks and 9 card schemes in Türkiye and enables you to make all your domestic and international collections with cards bearing a Visa, Mastercard, and Troy logo and collect payments from all credit cards in a single payment or installments.

Statistics*

* Figures are based on 2023 year-end data.

Control All Transactions

Enjoy easy tracking of your payment processes with an advanced member business panel, and process cancellations, refunds, transaction reports, wallet movements, user authorization, and many more effortlessly.
